

# Profit Page Wiz

## USER'S GUIDE

*By Chris Jenkins and Monika Morley*

## Profit Page Wiz Documentation

**Profit Page Wiz** is a WordPress plugin that, as it's name implies, enables you to create a dedicated profit page where you can list various offers for your visitors. This plugin allows you to customize the design and layout of not just the pages but the underlying elements as well. Furthermore, each profit page is packed with many other options including statistics to check how well your pages are performing.

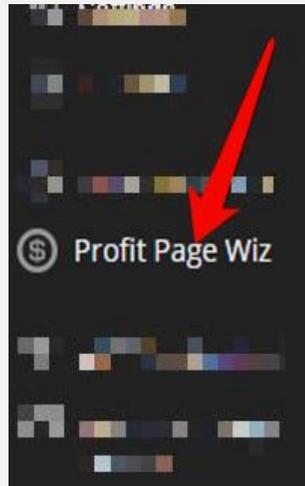

**Note:** This plugin comes in a lite version that doesn't have the following options available: Restricted user, Top Style, Footer Style, Box Style, Menu Style, Menu Color, Social Icon Style, Open Graph Image URL, Favicon URL, Tracking Code and Script.

## How to Use Profit Page Wiz

This guide assumes that you have already logged in to your WordPress admin area, and installed and activated **Profit Page Wiz**. Once the plugin has been activated, you should see its plugin option from the left admin panel.

## How to Add a Profit Page

1. To add a new profit page, hover your cursor over the plugin's menu item from the left admin panel then click **Add Profit Page**.

2. You should now be inside the **Add Profit Page** which should look similar to the image below. Configure the settings and supply the fields with the appropriate information to create a profit page. Details of the settings and fields are listed right after the image.

**Add Profit Page**

- **Page Name.** Supply this field with a unique name for the profit page so you can easily distinguish it from the rest of your profit pages.
  - **Permalink.** This field determines the structure of your profit page’s link. You can skip filling out this field as the system will automatically generate a permalink based on the page name provided.
  - **Status.** Choose whether you would like the profit page to go live by switching the switch to **Publish** or temporarily save it as **Draft** while you are still editing it.
  - **Restricted User.** This switch determines if the profit page will exclusively be available to logged-in users of your site by selecting **On**. By default, this switch is set to **Off** so it is accessible to all visitors of your site. Note that this option is not available in the lite version of the plugin.
  - **Offers Per Page.** Supply this field with a numerical value that is equivalent to the number of offers to be displayed on the profit page.
3. After you have reviewed and finalized the settings and details of the profit page, click **Add Profit Page** to save the profit page so you can further customize it.

- Once the profit page has been successfully added, you will then be redirected to the profit page's edit section where you can customize and manage it. Found in this page as well is the statistic to check the profit page's performance.

The screenshot shows the 'Demo Page' edit interface. At the top, it says 'Demo Page' and 'Created: 18 November 2014, 12:31'. The sidebar on the left has the following items: General, Offers (selected), Header and Footer, Top Content, Design, Share, SEO, Script, and Statistic. The main content area is titled 'Offers' and has a subtitle 'Manage offers content for your profit page'. There is a 'Save Change' button in the top right. Below the subtitle, there is an 'Add New Offer' button. The main content area says 'Data not available'. At the bottom of the main content area, there is a 'Save Change' button on the left and a 'View Page' button on the right.

- **General.** The general tab contains the details and information you have previously setup and supplied during the time you created the profit page.
- **Offers.** The offers tab contains the options to add and manage offers that will be displayed on your profit page.

## How to Add an Offer

1. Click the **Add New Offer** button on the upper left portion of the offers tab.
2. A popup window should then appear containing fields and options to add a new offer for the profit page.

➕ Add New Offer ✕ Cancel

- **Status.** Use this switch to set whether you would like to display it on your profit page by choosing **Publish** or select **Draft** if it still requires edits.
  - **Headline.** Supply this field with the heading or title of the offer.
  - **Thumbnail.** Upload an image from your computer or use an already uploaded graphic from your media library to use on your offer. Or if you have already uploaded it online, supply the image URL on the input field below the select image button.
  - **Offer Info.** This field should be filled out with the details regarding the offer.
  - **Call to Action Info.** Should contain information that would encourage the visitors to click the offer.
  - **URL.** Enter in this field the complete URL of the page containing more details and information of the offer.
  - **Button Label.** The text label of the button where the link to the offer is embedded.
  - **Button Style.** From the dropdown list, select the style of the button you would like to use and apply to the offer.
  - **Open in New Tab Window.** Turn the switch on to open the link of the offer in a new tab or new window. However, if you prefer that users open the link in the same tab/window, choose off.
- 3.** Click **Add New Offer** button to save and add the offer to your profit page.

## How to Manage Offers

- 1.** To manage offers of a specific profit page, edit the profit page and click the offers tab after.
- 2.** All offers that had been created will be displayed in a list view.
- 3.** To order your offers, simply grab the 4 headed arrow icon then drag it to the location you desire.
- 4.** To edit the offer, simply click the green edit button.
- 5.** To delete the offer click the red delete button. Note this action is irreversible so proceed at your own risk as saved data will be permanently lost.

- **Header and Footer.** This tab contains options that customize the contents of the header and footer of your profit page.

The screenshot shows the 'Header and Footer' configuration interface. On the left is a sidebar with navigation options: Header and Footer (selected), Top Content, Design, Share, SEO, Script, and Statistic. The main area is titled 'Header and Footer' and contains several sections:

- Site Header:** Features two radio buttons. 'Use Text' is selected, with an input field containing 'InstaBuilder 2.0'. 'Use Image' is unselected, with a preview of the InstaBuilder logo and buttons for 'Select Image' and 'Clear Image'.
- Header Link:** An empty input field.
- Main Menu:** A switch set to 'Off' and a dropdown menu labeled '- Select a Menu -'.
- Footer Text:** A rich text editor with a toolbar (bold, italic, text color, list, link, unlink, table, table border) and the text 'Copyright 2014. IB Test Site.'.
- Footer Menu:** A switch set to 'Off' and a dropdown menu labeled '- Select a Menu -'.

At the bottom of the panel are two buttons: 'Save Change' (blue) and 'View Page' (green).

- **Site Header.** Select whether you would like to have a text or image based header. To have a text-based header, select the radio button labeled **Use Text** and enter in the input field the content that will appear on the header. For image-based header, select the radio button with the label **Use Image** and upload the image desired from your computer or use ones that have been already uploaded in your media library to use in the header.
- **Header Link.** Supply this field with the complete URL you wish the user to be redirected to should they click on the header. However, if you prefer not to embed a link to your header, leave this field empty.
- **Main Menu.** Choose whether to enable the display of a navigation menu on the header section by clicking **On** then select the menu to use in the dropdown next to the switch. Leave this field **Off** if you prefer not to display any menu.

- **Footer Text.** Use the WYSIWYG editor to add contents to the footer section of the profit page.
- **Footer Menu.** Select **On** if you would like to enable a footer menu, then from the dropdown list select the menu you want to display in the footer area. Leave the switch to its default setting which is **Off** to disable menu display on the footer.
- **Top Content.** The top content tab contains options and settings to manage the top content of the profit page. All data that is supplied in this tab will be displayed right below the header section of the profit page.

Use Video

- **Title.** Enter in this field the heading or title of your profit page's top content.
- **Sub-title.** Supply this field with the subheading or tagline of your profit page's top content.

- **Info.** Use the WYSIWYG editor to add details and information of your profit page.
- **Preview Content.** This section allows you to choose what medium to use as a preview to your content. Select **Use Image** to display your preview content through an image. Click the **Select Image** button to upload the image from your computer or use one that is already uploaded in your media library. The last option to showcase your preview content is through video. Select **Use Video** to present your preview content through a YouTube video. Supply the text field right after the radio button with the YouTube URL.

- **Design.** This tab allows you to customize the look and feel of your profit page as well as the sections in it.

The screenshot displays the 'Design Settings' interface for a profit page. On the left is a vertical sidebar with navigation options: General, Offers, Header and Footer, Top Content, Design (highlighted), Share, SEO, Script, and Statistic. The main content area is titled 'Design Settings' with the subtitle 'Set the appearance of profit page'. A 'Save Change' button is in the top right, and a timestamp 'Last Update: 17 November 2014, 01:44:20' is below it. The settings are organized into three sections: 'Top Style', 'Top Content Style', and 'Footer Style'. Each section contains several settings with dropdown menus, color pickers, and help icons.

| Section           | Setting          | Value        |
|-------------------|------------------|--------------|
| Top Style         | Header Style     | Style #2     |
|                   | Text Color       | Select Color |
|                   | Background Color | Select Color |
|                   | Menu Style       | Text         |
| Top Content Style | Text Color       | Select Color |
|                   | Background Color | Select Color |
|                   | Font Family      | Roboto       |
| Footer Style      | Footer Style     | Style #2     |
|                   | Text Color       | Select Color |
|                   | Background Color | Select Color |
|                   | Menu Style       | Text         |

The image shows a settings interface for a profit page header. It is organized into several sections:

- Menu Color:** A dropdown menu set to 'White' with a help icon.
- Font Family:** A dropdown menu set to 'Roboto' with a help icon.
- Main Section Style:** A section containing:
  - Background Color:** A 'Select Color' button with a help icon.
  - Text Color:** A color picker set to black with a help icon.
  - Font Family:** A dropdown menu set to 'Roboto' with a help icon.
- Box Offer Settings:** A section containing:
  - Style:** A dropdown menu set to 'Style #6' with a help icon.
  - Background Color:** A 'Select Color' button with a help icon.
  - Text Color:** A color picker set to black with a help icon.
  - Border:** A toggle for 'On' (checked), a text input '1', a 'px' unit, a 'Solid' style dropdown, and a 'Select Color' button with a help icon.
  - Box Shadow:** A dropdown menu set to 'Smooth' with a help icon.
  - Box Transparency:** A dropdown menu set to 'None' with a help icon.

At the bottom of the panel are two buttons: 'Save Change' (blue) and 'View Page' (green).

- **Top Style.** This section contains options to customize the style of the profit page header. Note that this section is not available in the lite version of the plugin.
  - ◆ **Header Style.** Choose from the 3 predefined header styles in the dropdown list which style you would like to use and apply on the header of the profit page.
  - ◆ **Text Color.** Using the built-in color picker, select the color you would like the text contents in the header to be displayed in.
  - ◆ **Background Color.** Use the built-in color picker to set the background color that will be applied to the header section of the profit page.

- ◆ **Menu Style.** Choose from the predefined menu styles the one you would like to implement on the header section's menu if applicable.
- ◆ **Menu Color.** From the dropdown list, select the color that you want for items in the menu.
- ◆ **Font Family.** This field determines the font family to be used for the text contents of the header section.
- **Top Content Style.** This section contains styling options for the top content portion of the profit page.
  - ◆ **Text Color.** Use the built-in color picker to define the color that the text contents will be displayed in.
  - ◆ **Background Color.** This field allows you to set the background color of the top content section using the built-in color picker.
  - ◆ **Font Family.** Select from the list of fonts that you would like to use and apply to the text contents of the top content section of the profit page.
- **Footer Style.** This section allows you to customize the style of the footer area of the profit page.
  - ◆ **Footer Style.** Choose from the 3 predefined footer styles you would like to apply to your profit page's footer. Note that this option is not available in the lite version of the plugin.
  - ◆ **Text Color.** Using the color picker, select the color you would like to use to display all text in the footer area.
  - ◆ **Background Color.** Define the color you would like to implement as the background color of the footer section using the system's built-in color picker.
  - ◆ **Menu Style.** If you have enabled menu display on the profit page, select from the predefined styles available in the dropdown list that you would like to apply to the footer menu. Note that this option is not available in the lite version of the plugin.
  - ◆ **Menu Color.** Select from the dropdown list the color of the texts you would like it to be displayed on the menu. Note that this option is not available in the lite version of the plugin.

- ◆ **Font Family.** From the dropdown list, select the font you would like to use and apply to the text contents of the profit page's footer.
- **Main Section Style.** This section enables you to customize the style of the profit page's main section.
  - ◆ **Background Color.** Use the built-in color picker to choose a color to apply as the background color of the profit page's main section.
  - ◆ **Text Color.** Choose the default color to be applied on the profit page's text contents using the built-in color picker.
  - ◆ **Font Family.** Select from the dropdown list the default font to use on the profit page.
- **Box Offer Settings.** This section contains styling options to customize the look of the boxes where all the offers and the corresponding contents are enclosed. Note that this section is not available in the lite version of the plugin.
  - ◆ **Style.** Select from the 6 predefined styles in the dropdown you would like to use on the boxes containing your offers.
  - ◆ **Background Color.** Use the built-in color picker to select the background color to be applied to every box.
  - ◆ **Text Color.** Use the built-in color picker to select the color of the text contents to be displayed in the box.
  - ◆ **Border.** Allows you to further improve the look of the boxes by applying a border around them. Turn the switch on to use the border option then set how wide in pixels you want the border to be, the style (whether solid, dashed or dotted) and the color of the border using the built-in color picker.
  - ◆ **Box Shadow.** Select from the dropdown list which style of box shadow you want to apply to the boxes, or apply no box shadow at all.
  - ◆ **Box Transparency.** From the dropdown, choose how transparent you would like your boxes to be displayed.
- **Share.** This tab contains options that would allow you to add social sharing icons to every box offer so visitors can easily share your offers through their social sharing accounts.

- **Show Share Button.** This switch controls whether you would like to enable the display of the social sharing buttons to your box offers by turning it **On** or turn it **Off** to hide it.
- **Button Activate.** Choose from the 4 most popular social sharing sites you would like to be available on every box offer. Click the icon of the social sharing site to activate or deactivate its usage. By default all 4 are activated as indicated by the full colors of every icon. Deactivated social sharing sites will have the icon displayed in grayscale.
- **Button Icon.** From the dropdown list, select the style of the social sharing buttons you would like to use on every box offer. Note that this option is not available in the lite version of the plugin.
- **Preview.** Displays a preview or a sample of how the selected style of the button icon looks like.
- **SEO.** This section allows you to make your profit page loved by search engine bots by supplying the metadata of the page to make it SEO friendly.

- **CSS Code.** Enter in this field custom CSS code you want to apply on the profit page.
- **Head JavaScript Code.** Enter in this field the custom JavaScript codes that should be placed in the header section of the profit page just before the closing header tag.
- **Footer JavaScript Code.** Enter in this field the custom JavaScript codes that should be placed in the footer section of the profit page just before the closing body tag.
- **Statistic.** This tab contains a graphical representation of the data reflecting the performance of your profit page.

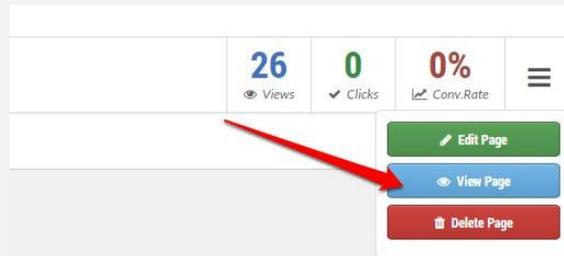

- **Views.** The views section displays the number of views the profit page has received. There is also a graphical representation of the data. Additionally, you can filter the data being displayed by date.
  - **Clicks.** The clicks section displays the number of clicks made by the visitors on the offers. A graph is also available wherein the data for the number of clicks is displayed. Moreover, the data can be filtered by date.
  - **CTR.** The click through rate section displays data that compares the number of visits the profit page gets with visits wherein users click on the offers.
5. Once settings have been reviewed and finalized, click the **Save Change** button to update the profit page with the recent changes. You can then view the site live by clicking the **View Page** button.

## How to Manage Profit Pages

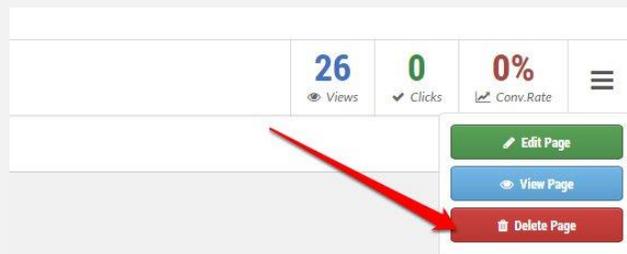

1. To manage profit pages, click Profit Page Wiz's menu item from the left admin panel to open the plugin's dashboard page where all profit pages are displayed in a list view.
2. Each profit page is displayed with statistics on the far right portion and a three-bar icon containing options to manage the profit page.
3. To edit the profit page, either click the title or the three-bar icon then click the **Edit Page** button thereafter.

4. To view the page, click the blue **View Page** button.

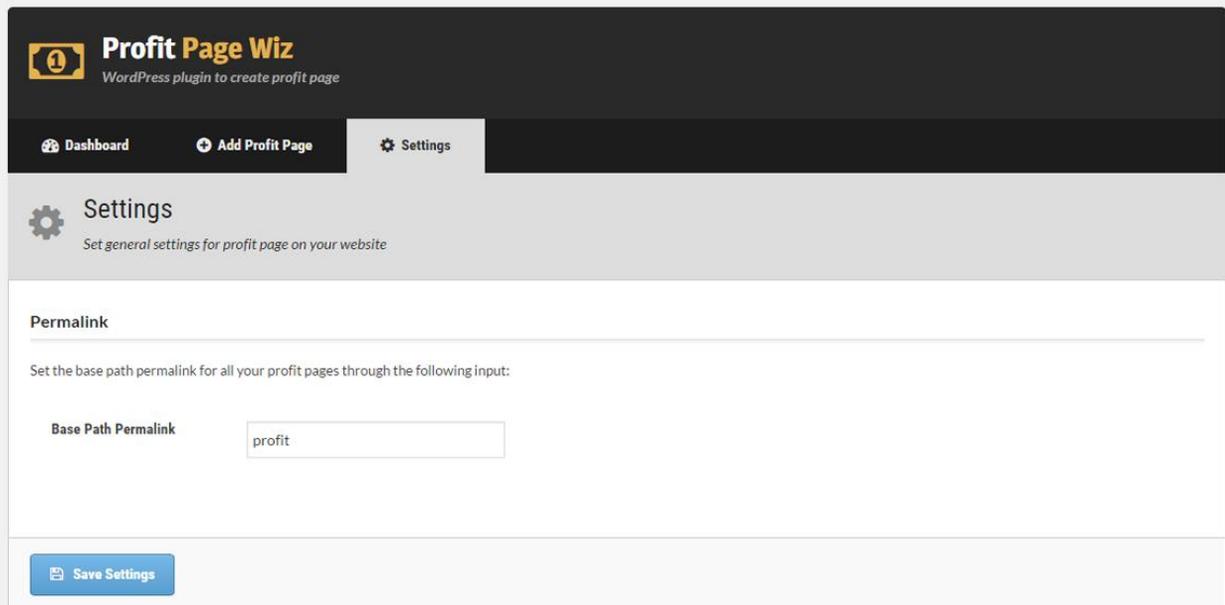

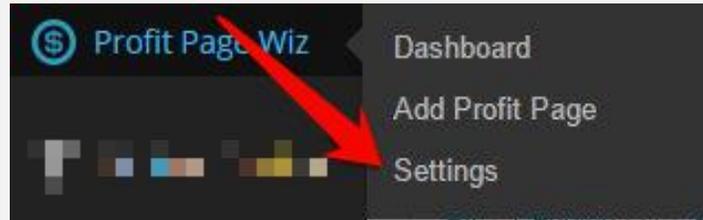

5. To delete the profit page, click the red **Delete Page** button. Note that a you will be prompted to confirm your action when deleting a page as this is irreversible and you will lose all the data and settings permanently for that profit page.

## Profit Page Wiz Settings

The settings page of Profit Page Wiz is accessible when you hover your cursor over the plugin's menu item from the left admin panel then click on **Settings**. It only has one option which is the base path of the permalink.

A screenshot of the Profit Page Wiz Settings page. The page has a dark header with the plugin logo and name 'Profit Page Wiz' and the tagline 'WordPress plugin to create profit page'. Below the header is a navigation bar with three tabs: 'Dashboard', 'Add Profit Page', and 'Settings'. The 'Settings' tab is active. The main content area is titled 'Settings' with a subtitle 'Set general settings for profit page on your website'. Under the 'Permalink' section, there is a text input field labeled 'Base Path Permalink' containing the text 'profit'. A 'Save Settings' button is located at the bottom of the page.
